Chibang Tao

Northwestern Polytechnical University | School of Computer Science

tcb@mail.nwpu.edu.cn | github.com/cybertime-cs | cybertime-cs.github.io

EDUCATION

Undergraduate in Computer Science and Technology | Expected July 2028
GPA: **3.98/4.1** | Rank: **5/295** (Top 1.69%)

RESEARCH INTERESTS

VLA / WAM; multimodal perception; large language models and efficient fine-tuning.

RESEARCH & ENGINEERING EXPERIENCE

ASLP Speech Laboratory | Research Intern
Contributed to a speech-data testing pipeline and the SeedAudio pipeline, gaining hands-on experience in deep learning experiments and speech processing.

Dancing Robot Team | Software Team Member
Deployed and debugged vision, speech and rhythm modules using OpenCV, Vosk and Whisper; participated in robot software and hardware integration.

SELECTED PROJECTS

LoRA Fine-tuning of Qwen3.5 0.8B
Configured the environment and implemented data loading and fine-tuning scripts; completed the training workflow and analyzed loss and accuracy trends.

YOLOv8 Object Detection
Built an everyday-object image dataset for robot perception through collection, cleaning, annotation and splitting; contributed to training and hyperparameter tuning.

Robot Servo Debugging Software
Collaborated on software for debugging robot servo motions. Related team outcomes received two software copyright registrations.

SELECTED HONORS & AWARDS

National Scholarship | 2025-2026 academic year	2026
National Scholarship | 2024-2025 academic year	2025
University First-class Scholarship	2025
RoboCup China Finals | Dancing Robot Performance | National Grand Prize (Champion, Zhurong)	2026
RoboCup China Finals | Dancing Robot Creativity | National Grand Prize (Runner-up, Yinhe)	2026
RoboCup China Special Competition | Dancing Robot Performance | National Grand Prize (Third Place)	2026
RoboCup China Special Competition | Dancing Robot Performance | National Third Prize	2025
RAICOM Robotics Design Competition | Provincial First Prize	2026
3D Digital Modeling Competition | Provincial Special Prize	2026
MCM/ICM | Honorable Mention	2026
Northwestern Polytechnical University Mathematics Competition | University First Prize	2026

SKILLS & LANGUAGES

Programming: C/C++, Python, Java | **Tools:** OpenCV, YOLOv8, LoRA, Vosk, Whisper
English: CET-6, 565
